**PART A – NOTES TO THE INTERIM FINANCIAL STATEMENTS**

**A1. Basis of preparation**

The interim financial statements should be read in conjunction with the Group's most recent audited financial statements for the financial year ended 31 March 2021.

The significant accounting policies and methods of computation adopted in the unaudited condensed interim financial statements are consistent with those adopted in the audited financial statements for the financial year ended 31 March 2021 except for the adoption of the following accounting standards, Interpretations Committee ("IC") Interpretations and amendments/improvements to Malaysian Financial Reporting Standards ("MFRSs") issued by the Malaysian Accounting Standards Board ("MASB") that are effective for the Group's financial year beginning 1 April 2021:

- Amendments to MFRS 9, MFRS 139, MFRS 7, MFRS 4 and MFRS 16 *Interest Rate Benchmark Reform-Phase 2*
- Amendments to MFRS 16 *Leases Covid-19-Related Rent Concessions beyond 30 June 2021*

The adoption of the above accounting standards and amendments/improvements to MFRSs does not have any material impact on the financial statements of the Group.

**Standards issued but not yet effective**

The adoption of the above accounting standards and amendments/improvements to MFRSs does not have any material impact on the financial statements of the Group except as discussed below:

**MFRS 17 Insurance Contracts ("MFRS 17")**

MFRS 17 will replace MFRS 4 Insurance Contracts issued in 2005. MFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects.

The main features of the new accounting model for insurance contracts are as follows:

- The measurement of the present value of future cash flows, incorporating an explicit risk adjustment, remeasured at every reporting period (the fulfilment cash flows);
- A Contractual Service Margin ("CSM") that is equal and opposite to any day one gain in the fulfilment cash flows of a group of contracts, representing the unearned profitability of the insurance contracts to be recognised in the income statement over the service period (i.e., coverage period);
- Certain changes in the expected present value of future cash flows are adjusted against the CSM and thereby recognised in the income statement over the remaining contractual service period;
- The effect of changes in discount rates will be reported in either profit or loss or other comprehensive income, determined by an accounting policy choice;
- The presentation of insurance revenue and insurance service expenses in the income statement will be based on the concept of services provided during the period;

**INTERIM FINANCIAL STATEMENTS**  
**FOR THE FINANCIAL PERIOD ENDED 31 DECEMBER 2021**  
(The figures have not been audited)

**PART A – NOTES TO THE INTERIM FINANCIAL STATEMENTS**

**A1. Basis of preparation (cont'd.)**

**MFRS 17 Insurance Contracts ("MFRS 17") (cont'd.)**

- Amounts that the policyholders will always receive, regardless of whether an insured event happens (non-distinct investment components) are not presented in the income statements, but are recognised directly on the statements of financial position;
- Insurance services results (earned revenue less incurred claims and expenses) are presented separately from the insurance finance income or expense; and
- Extensive disclosures to provide information on the recognised amounts from insurance contracts and the nature and extent of risks arising from these contracts.

Based on the Amendments to MFRS 17, the standard is effective for reporting periods beginning on or after 1 January 2023, with the option to apply a full retrospective, modified retrospective or fair value approach on transition. Early application is permitted, as the Group and the Company have applied MFRS 9 and MFRS 15 before the date it first applies MFRS 17.

The Malaysian Accounting Standards Board subsequently issued a paper titled MFRS 17 Insurance Contracts: Definition and Scope for Takaful. The paper concluded that MFRS 17 is applicable to a Takaful contract because:

- MFRS 17 applies to those contracts that fall within the 'insurance contract' definition, regardless of their legal form or the legal form of the issuing entity. Accordingly, takaful contracts would fall within the scope of MFRS 17 because a takaful fund or entity is separate from the participants (takaful policyholders) and the fund or entity is accepting significant insurance risk from the participants in the same way that a mutual conventional insurer accepts significant insurance risk from its policyholders. As MFRS 17 deems that a mutual entity accepts insurance risk, it is considered that the mutuality aspect of takaful contracts is consistent with takaful entity also accepting insurance risk;
- In the context of MFRS 17, insurance risk is being transferred from participants (takaful policyholders) to another entity – either represented by the takaful fund or funds or the takaful operator as the entity managing the insurance business as a whole; and
- The acceptance of significant insurance risk need not be a direct, overt acceptance but may result from the presence of factors and circumstances indicating that insurance risk has been transferred. This is consistent with the objective of MFRS 17 that considers an entity's substantive rights and obligations when applying MFRS 17.

As a result of the above, the Group has assessed the takaful and retakaful contracts issued and concluded that MFRS 17 is applicable to the contracts issued and held. Consequently, the Group has established a project team with the assistance from consultants to plan and manage the MNRB Group wide implementation of MFRS 17. The Group is in the midst of implementing the relevant systems solution, architecture and processes to ensure compliance to the said standard.

## A15. Fair values of assets

MFRS 7 Financial Instruments: Disclosures ("MFRS 7") requires the classification of financial instruments measured at fair value according to a hierarchy that reflects the significance of inputs used in making the measurements, in particular, whether the inputs used are observable or unobservable. MFRS 13 *Fair Value Measurement* requires similar disclosure requirements as MFRS 7, but extends to include all assets and liabilities measured at fair value and/or for which fair values are disclosed. The following levels of hierarchy are used for determining and disclosing the fair value of the Group and the Company's assets:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 - Inputs that are based on observable market data, either directly or indirectly

Level 3 - Inputs that are not based on observable market data

The fair values of the Group and Company's assets are determined as follows:

- (i) The carrying amounts of financial assets, such as loans and receivables, insurance/takaful receivables and cash and bank balances, are reasonable approximation of their fair values due to the relatively short term maturity of these balances;
- (ii) The fair values of quoted equities are based on quoted market prices as at the reporting date;
- (iii) The fair values of Malaysian government securities, government investment issues and unquoted corporate debt securities are based on indicative market prices from the Bond Pricing Agency of Malaysia ("BPAM");
- (iv) The fair values of investments in mutual funds, unit trust funds and real estate investment trusts are valued based on the net asset values of the underlying funds as at the reporting date;
- (v) Freehold land and buildings and investment property have been revalued based on valuations performed by accredited independent valuers having appropriate recognised professional qualification. The valuations are based on the income and comparison approaches. In arriving at the fair value of the assets, the valuers had also taken into consideration the future developments in terms of infrastructure in the vicinity of the properties; and
- (vi) Fair value of unquoted shares in Malaysia are derived using the net assets of the invested companies.

### Description of significant unobservable inputs:

	Valuation technique	Significant unobservable inputs	Range
<b>31 December 2021/ 31 March 2021</b>			
<u>Property, plant and equipment</u>			
Office building of Malaysian Reinsurance Berhad ("MRE")	Income approach	Yield Rental per square foot	6.25% RM4.50
Office buildings of Takaful Ikhlas Family Berhad ("TIFB")	Comparison approach	Sales price per square feet for similar properties	RM641 to RM1,511
<u>Unquoted shares in Malaysia</u>	Net assets	Net assets	Not applicable

**A15. Fair values of assets (cont'd)**

A significant increase or decrease in the unobservable inputs used in the valuation would result in a correspondingly higher or lower fair value.

There has been no transfer between Level 1 and Level 2 of the fair value hierarchy during the financial period.

As at the reporting date, the Group and the Company held the following assets that are measured at fair value and/or for which fair values are disclosed under Levels 1, 2 and 3 of the fair value hierarchy:

**B1. Review of performance**

For the financial period ended 31 December 2021, the Group recorded a revenue of RM2,309.4 million, an increase of 14.9% as compared to RM2,010.4 million reported in the corresponding period last year. The RM299.0 million increase was contributed by higher gross premiums/contributions generated by the reinsurance and takaful subsidiaries.

The Group recorded a decrease of 54.8% in net profit for the financial period ended 31 December 2021 of RM63.3 million, as compared to RM140.2 million reported in the same period last year for the reasons stated below.

Investment holding

Revenue for the financial period was RM126.3 million as compared to RM123.4 million reported in the same period last year. The higher revenue was due to increase in the Group Shared Services ("GSSU") fees income from the subsidiaries.

A net profit amounting to RM81.4 million was recorded for the financial period ended 31 December 2021 lower by 3.6% as compared to a net profit of RM84.4 million for the corresponding period. This was contributed by the lower dividend received from subsidiaries as compared to the same period last year.

Reinsurance business

Revenue for the reinsurance business for the financial period ended 31 December 2021 was RM1,301.3 million as compared to RM1,072.9 million in the same period last year. The increase was mainly due to increase in the gross premium from the international business portfolio.

Net profit for the financial period ended 31 December 2021 decreased by RM63.4 million from RM78.6 million in same period last year to RM15.1 million. The lower net profit was the result of higher large losses and lower share of net profit from associate.

Retakaful business

Revenue for the retakaful business for the financial period ended 31 December 2021 increased from RM39.8 million to RM52.8 million or 32.6% mainly attributable to higher net contribution received.

The retakaful business recorded lower net profit of RM4.5 million for the financial period ended 31 December 2021, a decrease of RM1.4 million as compared to RM5.9 million reported in the corresponding period. The decrease was contributed by higher net claims and benefits incurred.

General Takaful business

Revenue for the general takaful business for the financial period ended 31 December 2021 increased by RM32.8 million from RM337.2 million to RM370.0 million or 9.7% from corresponding period. This was mainly due to higher net earned contribution.

General takaful business recorded a net profit of RM19.1 million in the financial period ended 31 December 2021, a decrease of 14.2% as compared to a net profit of RM22.2 million reported in the same period last year due to higher acquisition expenses.

Family Takaful business

Revenue for the family takaful business for the financial period ended 31 December 2021 increased by RM42.1 million to RM597.9 million from RM555.8 million or 7.8% from the corresponding period. This was mainly due to higher gross contribution.

Family takaful business recorded a net profit of RM22.0 million in the financial period ended 31 December 2021, a decrease of RM2.3 million as compared to a net profit of RM24.3 million reported in the corresponding period due to higher expenses in regulatory fees.

**B2. Review of current quarter profitability against immediate preceding quarter**

The Group recorded a net loss of RM22.1 million in the current quarter as compared to net profit of RM19.4 million in the preceding quarter due to lower investment income and higher net claims and benefits incurred, including claims arising from the December 2021 flood in Malaysia.

**B3. Current year prospect**

With the recovery momentum seen during the first nine months of 2021, the Malaysian economy is on track for recovery and is expected to rebound on most fronts, riding on the positive momentum of high vaccine coverage in the country and the ongoing vaccine booster rollout. This signals a more sustainable economic re-opening and resumption of most social activities in 2022. However, the recent emergence of the Omicron variant poses a potential threat which could delay the economic recovery but would not completely derail it.

The prolonged effects of the pandemic pose a challenge to the Group's operating environment. The normalisation of claims ratios with the easing of the lockdowns and the re-opening of the economy coupled with the year-end flood catastrophe also contributed to the current challenging business results.

Despite the challenges, the Group remains resilient and optimistic to pursue our strategic initiatives and leverage on our capital position to deliver a decent profit for the current financial year. Additionally, the Group continues to emphasize prudent risk management, drive further adoption of digital solutions and remains committed to providing excellent customer experience.
